

Spirituality at St Andrew's

Expressing and putting into words what spirituality actually is can be difficult, as it is a uniquely personal experience and differs from person to person and can change throughout a life time.

Spirituality is not the same as having a religion or faith.

As a school community, we have defined spirituality as:

An awareness of ourselves and our relationship with others including God.

Our relationship with the world; looking out and being inspired by the wonders that surround us.

At St Andrew's the pupils are able to ask and answer questions; discuss, develop and reflect on their ideas through our curriculum, school values, worship and our personal relationships.

It is our aim to provide an environment where we can learn together and develop;

- **A sense of wonder through studying science, art and music.**
- **Be inspired by people that are amazing**
- **Connect with each other through mutual love and respect.**
- **Offer support to one another when facing new challenges or when moving on to new situations.**
